

# Non-Traditional Occupations

## Did You Know.....

...that approximately  $\frac{1}{2}$  of the students who start at a four year college do not graduate?

...that approximately  $\frac{1}{2}$  of those who do graduate do not find a job in their degree major?

...that the majority of present and future jobs require more than a high school education but less than a four year degree?

...that you can expect to change careers (not jobs) five to six times in your lifetime?

...that there is a shortage of trained workers in trades, technology and healthcare?

...that many of the jobs that do not require a four-year degree actually pay much more than jobs that require four-year degrees?
